

Professor Trinh Thi Dieu Thuong, MD, PhD

Director General – Administration of Traditional Medicine,
Ministry of Health, Vietnam

Professional Biography

Professor Trinh Thi Dieu Thuong is a leading Vietnamese expert in traditional medicine, medicinal herb research, and healthcare management. Her professional career combines academic research, medical education, and national policy development in the field of traditional medicine.

She received her Doctor of Philosophy (PhD) in Traditional Medicine from the University of Medicine and Pharmacy at Ho Chi Minh City, where she previously served as a lecturer and Head of the Department of Traditional Medicine. Her academic and professional work has focused on traditional medicine research, medicinal herb pharmacology, and the integration of traditional medicine with modern healthcare systems.

Currently serving as Director General of the Administration of Traditional Medicine under the Ministry of Health of Vietnam, she plays an important role in developing national policies, strengthening regulatory frameworks for herbal medicines, and promoting the development and international collaboration of traditional medicine in Vietnam.
